Werewolf (2018) Movie Poster Werewolf (2018) is a film directed by Adrian Panek and is currently available for transmission on Netflix. Kamil Polisiak, Nicolas Przygoda, Sonia Mietelica, Danuta Stenka, Werner Daehn Star in Werewolf (2018). Synopsis: Verina of 1945. A temporary orphanage is established in an abandoned place surrounded by forests to the eight children released from the Gross-Rosen camp. Hanka, too, becomes his guardian. After the camp atrocities, the protagonists slowly begin to recover what remains of their childhood, but horror returns quickly. Camp Alsatians brush the forests around. Released by SS earlier, they were feral and hungry. A Search for food they surround the pair. The childlike children and their camp survival instinct is triggered. Directors: Adrian Panek Starring: Kamil Polisiak, Nicolas Przygoda, Sonia Mietelica, Danuta Stenka, Werner Daehn, Jakub Syska, Helena Mazur, Krzysztof Durski, Maksymilian Balcerowski, Julia Slusarczyk, Matylda Icergnasiak, Oleksandr Shcherbyna Dominik Danilczyk Editors: Jaroslaw Kaminski Oscars: 0Awards : 11Nominations: 14imdb: 4 € 6.0/10 Metascore: 4 A A A A A A A A A ours, Poonh, Russpaas: Posto, Holland, Germany, Germany We all love horror movies and programs of TV, but something that makes us perk above is monster movies and are rie, especially if these monsters are werewolves. There were some horrible werewolves in the movies, while there were also some that are scary. I do not mean the 'Crep'. Werewolves' Sarah in either, they were just something (sorry Twilight fans). But what we're looking at is something scarier and beastly, like a true real monster. The world of werewolves really started catching up with TV series after 'Teen Wolf' came out in 2011, and as typical as the name may seem, it was actually pretty good. But it still not a trend yet to make werewolves the primary characters of any movie or series; only a few manage to do that, while others keep them as side roles alongside vampires or other monsters. If you believe that werewolves should get the love they deserve, then watch these few shows available on Netflix that revolves around werewolves in one way or the other. Here's the list of really good werewolf TV series on Netflix that are available to stream right now. 10. Hemlock Grove (2013) This show is based on a book by Brian McGreevy and is produced by Eli Roth. It revolves around the lives of the residents of a town called Hemlock Grove in Pennsylvania. No matter who lives in the town, the wealthy or the poor, all of them have strange secrets that they hide from the rest. But some incidents turn everything upside down and soon, everyone's secrets are not secrets anymore. Everything that was behind curtains till now starts to get exposed and nothing is what it seemed like. This show is really good only if you watch it with some patience. Try absorbing the weirdness of the show and its characters, instead of repelling all of it, and only then, will you be able to form a good opinion about it. 9. The Order (2019) A college student decides to pledge a secret order which takes him to a secret hidden world he was never aware of: a world where a war is already going on between werewolves and people who are experts in the field of black magic. The show will initially make you roll your eyes because of how typical everything is. But slowly, all of it just gets crazier and bizarre but that's when it actually gets better and the plot mammorodasAa sorrehnampoc suas e ele omni tnomleB roverT oda\$Aargsed roda\$Aac ogitha os sethanoinmce e satisadivnoe e stenamucroba saruthneva sa euges e laveindas aporuE an adatneibima. This is beautifully lively and presents the voices of Richard Armitage and Theo James, among others. If you're someone who likes mysticism and dark creatures like werewolves and vampires, you can't lose the @A & C Castle. 5. The Vampire Diaries (2009 - 2016) The highly popular teenage drama . the vampire's duals begin as a tilt between two vampires " - a good, an evil - while they fight for For the love of the same girl. But throughout the states, the primary evolves to becoming darker and more dark, with the best moments of the show is not something of novels, but from the bromance between the two sister Stefan and Damon would kill or die for each other. Of course, the last ways (only the last two) seem a little dragged, but the end of the show takes all the characters to a full satisfaction. 4. Sabrina's chilling adventures (2018-2020) Sabrina-Gira's surfaces around Sabrina Spelman, a teenage witch faces the best choice in her 16-year-old birthday. Made to choose from embracing the fantastic world of witches of her Família or staying in the human world with her friends. Sabrina soon realizes that balance her half-mixed nature is not so fanci as it seems. In addition, with the evil of the witch's world threatening her Família and the friends she grew up. The Kallian Frequency (2019) "the Kallian frequency à f. à a very strange show that emits the most frightening vibration. The story revolves around a half-half transmissive DJ of transmission that recites Kallian outer edges, a land lost in Argentina. This is not known to most people and hides among the many others on Netflix, but those who have seen it know that this one is a pill. Each episode lasts approximately ten minutes and each one counts a different strange story with just a common ground and this is the unknown city of Kirlian who can not be accessed by normal people. The show is very original and in granic, unlike anything else you have seen before. If you are a sucker for small horror stories, you will surely fall in love with this show.
